

BB Certification is no different from any other certification. If not kept current it expires.

In order to keep our section in line with other sections in Canada, IPSC NB has adopted the following Black Badge recertification policy. Adopted by majority vote of the IPSC NB Executive on October 24<sup>th</sup>, 2018

If an IPSC member has not shot a match for a period of **less than two calendar years** they are required to renew their membership with the section only.

If an IPSC member has not shot a match for a period of **2-4 years** they will be required to spend 2 hours on a range with a BB instructor to have them sign off as recertified. During the 2 hours, the BBI will have the member complete both timed and movement drills from the Black Badge qualification checklist.

If an IPSC member has not shot a match for a period of **4+ years** they must retake the black badge at cost and must pass.
